## Commitment to achieving Net Zero

**SGA Dental Group** is committed to achieving Net Zero emissions by 20**50**. To demonstrate greater ambition consistent with healthcare stewardship, SGA also commits to interim reductions of 30% by 2032 and 60% by 2040, relative to the chosen baseline year.

## Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.
